The latter should forward his certificate to the Superintending Engineer who will report to Government whether partial or total remission of rent should be allowed and for what period.

"24 (1). If the elector is unable to read the ballot paper and applies for assistance in doing so, the presiding officer shall read it for him. If required by the elector to mark the ballot paper, the presiding officer shall mark it according to the directions of the elector and give it back to him to be put into the ballot box.

"(2) In the case of every elector whose ballot paper is marked in this manner by the presiding officer, a note shall be made on the counterfoil, Form III-A, by the presiding officer of the reason why it was so marked."

In the Press Communiqué issued with G.O. No. 433, dated 4th October 1926, the scope of this regulation was explained as follows:—

"If an elector states that he is unable to read the ballot paper and applies to the presiding officer for assistance in doing so, the presiding officer should read it for him. The presiding officer should not ask the elector for whom he wishes to vote or undertake to mark the ballot paper unless a specific request is made to him by the elector for assistance. If the presiding officer is required by the elector to mark the ballot paper, he should mark it according to the directions of the elector and give it back to the elector to be put into the ballot box. He should also make the necessary entries on the counterfoil of the ballot paper."

It was brought to the notice of Government that these directions tended to defeat the very object of regulation 24 and caused a great waste of the presiding officer's time. Thereupon in 1927 the Government examined the question in consultation with the Collectors of districts and amended the regulation as follows:—

"24 (1). If the elector states that he cannot record his vote himself, the presiding officer shall ascertain from him for whom he wishes to vote and shall mark his ballot paper accordingly and give it to him to be put in the ballot box.

(2) In the case of every elector whose ballot paper is marked in this manner by the presiding officer, a note shall be made on the counterfoil, Form III-A, by the presiding officer of the reason why it was so marked."

It will be observed that under the amended regulation the presiding officer need not wait for a specific request from the elector before marking his ballot paper. As soon as the elector states that he cannot record his vote himself the presiding officer can straightaway put questions to him to ascertain for whom he wishes to vote and mark the ballot paper according to his directions. Returning officers are requested to point out to all presiding officers the change in procedure effected by the amended regulation.

2 At the budget debates of March 1930, a number of M. L. Cs complained that the existing system of recording the votes of illiterate electors was unsatisfactory and suggested the adoption of the system which obtains in some other provinces, of assigning to each candidate a distinguishing symbol or colour. The suggestion has been examined and the Government are advised that the system of symbols or colours is by no means free from material defects. The Government have therefore decided not to adopt it at the coming elections.

3 Returning officers are requested to instruct all presiding officers that the marking of an incapacitated elector's ballot paper under regulation

24 should be done by the presiding officer at his own table and in the presence of the candidates or the polling agents, who have a right to hear the elector's request and to watch the presiding officer when he marks the ballot paper. Returning officers should also make all necessary arrangements to ensure that illiterate electors are not subjected to pressure or influence from candidates or their agents inside the polling station in exercising their choice. They should issue strict instructions to the presiding officers not to allow any crowd to assemble round illiterate electors, nor to permit persons other than the candidates and their duly authorized agents to be present at or near the places where the voting takes place.

4. The instructions to presiding officers issued with Circular No. 15, dated 30th July 1920, as now revised are printed as Annexure A. Returning officers are authorized to indent on the Superintendent, Government Press, for the number of copies of the instructions required for distribution to the polling stations.

5. Annexure B to this Circular contains a set of directions to electors. The Superintendent, Government Press, is requested to obtain from the Senior Translator to Government and the Collector of Ganjam translations in the vernaculars of the "Directions for the guidance of the elector," to print copies in bold characters and to supply them to returning officers for distribution to polling stations. Returning officers should arrange to have copies of the "Directions for the guidance of the elector" printed in the vernacular of the locality, placarded outside every polling station and in every compartment of every polling station.

ANNEXURE A.

Instructions to Presiding Officers.

The presiding officer and the polling officers must be at the polling station half an hour before the poll opens.

Polling officers are assistants to the presiding officers and can be entrusted with any of the duties of the presiding officer which they are competent to perform, except those which involve the exercise of a judicial discretion, e.g., that referred to in regulation 27 or depend on *the status and personal qualification* of the presiding officer, such as the initialling of the ballot papers under regulation 22 or the marking of the votes of blind and illiterate electors under regulation 24.

In cases where owing to unavoidable circumstances the presiding officer is unable to preside at the polling station, the senior polling officer authorized by the returning officer to act as presiding officer at that station will perform the duties of the presiding officer.

The presiding officer will have received previous to the poll—

ballot boxes;
distinguishing slips with the names of constituencies to be pasted on the ballot boxes;
ballot papers;
tendered ballot papers (on coloured paper);
a copy so much of the electoral roll as contains the names of the electors entitled to vote at the polling station;
sealing wax and seal;
pencils; and
necessary forms, covers and stationery.

The presiding officer should immediately arrange these in convenient positions, so that they may be readily available throughout the poll.

The presiding officer and the polling officers should see before the poll opens—

(1) that the table, the ballot box and voting compartments are arranged in the most suitable positions for taking the votes;

(2) that a notice of the names and numbers of the electors entitled to vote at the station and the constituencies for which poll will be taken there is posted outside the station in a most conspicuous place;

(3) that a copy of the directions for the guidance of electors in voting is posted outside the station and in every voting compartment, and that the copy is kept posted during the polling hours;

(4) that nothing except the directions referred to in (3) is printed or written on or inside the voting compartment;

(5) that a pencil for marking the ballot papers is attached by a piece of string to each voting compartment. Care should be taken to see that the pencils are *kept sufficiently pointed for use* during the polling hours.

The presiding officer should impress on all present the need for secrecy, and read and explain to them the provisions of section 14 of Part II of the Indian Elections Offences and Inquiries Act, 1920. A vernacular translation of the section has been furnished to him.

Polling agents must produce their appointments to the presiding officer, i.e., they must produce the written authorization of the candidates appointing them as agents.

Immediately before the opening of the poll the presiding officer should show the ballot box or boxes empty to such persons (if any) as may be present, and then lock them up and seal them so as to prevent any box being opened without breaking the seal, and keep them so locked and sealed. A ballot box, once sealed, must on no account be again opened.

No ballot box, during the poll, may be taken out of the polling station for any purpose whatever.

The poll must commence at 7 a.m. and close at 6 p.m. *precisely*. It may be closed for an hour between those limits according to the directions of the returning officer.

The presiding officer should acquaint himself thoroughly with the regulations relating to the procedure at the poll—a copy of which is appended. He should keep order at the polling station and should see that no crowd is allowed to gather inside the room where the polling takes place or near the presiding officer's table and the ballot boxes. He should remember that every person whose name is on the electoral roll of the area to which the polling station has been appointed is entitled to vote and that the only cases in which he can refuse to supply ballot papers to an intending elector are those mentioned in Regulation 25. Candidates or their polling agents may, however, challenge the identity of an elector, to whom thereupon the questions mentioned in Regulation 25 should be put. A summary enquiry as to the identity of the elector may also be held by the presiding officer. But the elector should not be prevented from voting. The presiding officer can only make a note of the circumstances and of his decision on the list of

challenged votes and inform the elector of the penalty for personation, i.e., imprisonment of either description for one year or fine or both.

He should carefully study the provisions regarding tendered votes and votes of blind and incapacitated persons (Regulations 20 and 24) and follow them when cases arise for their application.

No crowd should be allowed to assemble round an incapacitated elector while inside the polling station. Care should be taken to see that he is not subjected to pressure or influence from others in exercising his choice. No one other than the candidates and their duly authorized agents should be allowed to be present at or near the place where his voting takes place. The candidates and their agents have a right to hear the electors' request and to watch the presiding officer when he marks the ballot paper.

The presiding officer should be careful to write the word "Illiterate" on the counterfoils of ballot papers marked by him at the request of electors unable to read and write.

A tendered ballot paper should, after the necessary endorsement has been made thereon, not be put into the ballot box but in a separate packet. The ballot paper of a person allowed to vote under Regulation 20 should also not be put in the ballot box but should be separately sent to the Returning Officer in a sealed envelope with the certificate of the Returning Officer referred to in Regulation 21. The counterfoil of such ballot paper should also be placed in an envelope and should be added at the end of the file of counterfoils of the polling station at which the vote was recorded.

The presiding officer should detach the ballot paper from the counterfoil and put his initials on the back of the ballot paper in such a place that when folded they would be visible outside.

Care must be taken that no mark of any kind is put upon the ballot paper by the presiding or polling officer.

At the close of the poll, the slit on the top of each ballot box should be closed and sealed and care should be taken that none of the hot wax gets into the ballot box. The presiding officer should then fill in the ballot paper account in form No. VI and in the presence of the candidates or polling agents, if any, in attendance, make up the packets referred to in Regulation 31, seal them and forward them to the Returning Officer. In so forwarding, he should carefully follow the provisions of Regulation 33 and any instructions given to him by the Returning Officer. Where no vote has been recorded in any constituency, the presiding officer should submit a nil report together with the statement in form No. VI and the empty box.

Extracts from "Regulations for the Conduct of Elections."

* * * *

12. The poll shall commence at 7 a.m. and be kept open till 6 p.m. It may be closed for an hour between these limits at the discretion of the Returning Officer.

13. The Returning Officer may, for sufficient cause and with the previous consent of the Local Government, postpone the date or extend the period fixed for polling.

14. The Returning Officer shall appoint one polling station for each polling area in each constituency and shall appoint a presiding officer for each polling station and such other persons (hereinafter referred to as polling officers) to assist the presiding officer as he thinks necessary.

15. The presiding officer shall keep order at the polling station, shall see that the election is fairly conducted, shall regulate the number of electors to be admitted at one time, and shall exclude all other persons except—

(*a*) the polling officers, the candidates, and one agent of each candidate at a time (hereinafter referred to as the polling agent) appointed in writing by the candidate,

(*b*) the police or other public servants on duty, and

(*c*) such other persons as the presiding officer may from time to time admit for the purpose of identifying electors.

16. Subject to the provisions of regulation 20 *infra* no elector shall be admitted to vote except at the polling station fixed under regulation 14 for the polling area under which his name appears on the electoral roll.

17. (1) The presiding officer shall close the polling station at the hour appointed for closing under regulations 12 and 13, so as to prevent the admission thereto of any elector after that hour.

(2) No ballot paper shall be issued after that hour, but any elector who has received his ballot paper before that hour shall be allowed a reasonable opportunity to record his vote.

18. Each polling station shall be furnished with such number of compartments in which electors can record their votes screened from observation, as the Returning Officer thinks necessary. As far as possible, separate compartments and separate entrance and exits shall be provided for women electors.

19. The Returning Officer shall provide at each polling station materials sufficient for the purpose of enabling electors to mark the ballot papers, as many ballot boxes as may be necessary, and copies of the electoral roll or such part thereof as contains the names of the electors entitled to vote at such station.

20. (1) Every ballot box shall be so constructed that the ballot papers can be introduced therein but cannot be withdrawn therefrom, without the box being unlocked. The presiding officer at any polling station, immediately before the commencement of the poll, shall show the ballot box empty to such persons as may be present in such station, so that they may see that it is empty, and shall then lock it up and place his seal upon it in such manner as to prevent its being opened without breaking such seal, and shall place it in his view for the receipt of ballot papers and keep it so locked and sealed.

(2) Before the polling station is open for the recording of votes, the presiding officer shall read to such persons as may be present the provisions of section 14 of the Indian Electoral Offences and Inquiries Act, 1920, and shall explain the substance thereof in the vernacular of the district.

21. (1) Every ballot paper shall be in Form III and shall have a counterfoil attached to it which shall be in Form III-A. The ballot paper shall have the names of the candidates in the order in which they appear in Form II. If there are

two candidates whose names are the same, they shall be distinguished by the addition of their occupation or in some other way. Ballot papers shall be printed in such language or languages as the Returning Officer may consider necessary.

(3) The ballot papers printed in each language shall be serially numbered, the serial number being printed on the face of the counterfoil and on the back of the ballot paper.

22. Immediately before a ballot paper is delivered to an elector, the number, name and description of the elector as stated in the electoral roll shall be called out, and the number and name of the elector shall be entered on the counterfoil. The presiding officer shall then detach the ballot paper from the counterfoil, initial it on its back and deliver it to the elector, and a mark shall be placed on a copy of the electoral roll against the number of the elector to denote that he has received a ballot paper, but without showing the particular ballot paper which he has received. On the counterfoil shall be entered the name of the constituency and the name or distinctive number of the polling station.

23. The elector, on receiving the ballot paper, shall forthwith proceed into one of the compartments in the polling station, and there mark his paper, and fold it up so as to conceal his vote and after showing to the presiding officer his (i.e., the presiding officer's) initials thereon shall put his ballot paper so folded up into the ballot box. Every elector shall vote without undue delay and shall quit the polling station as soon as he has put his ballot paper into the ballot box.

24. (1) If the elector states that he cannot record his vote himself, the presiding officer shall ascertain from him for whom he wishes to vote and shall mark his ballot paper accordingly and give it to him to be put in the ballot box.

(2) In the case of every elector whose ballot paper is marked in this manner by the presiding officer, a note shall be made on the counterfoil, Form III-A, by the presiding officer of the reason why it was so marked.

25. (1) When a person presents himself to vote and at any time before a ballot paper is supplied to him, the presiding officer or polling officer may, of his own accord, and shall, if so required by a candidate or polling agent, put to such person any or all of the following questions —

(i) Are you the person enrolled as follows (reading the whole entry from the roll)?

(ii) Have you already voted at the present election in this constituency?

(iii) (And at a general election) Have you already voted at this general election for the Legislative Council in any other general constituency?

and the person shall not be supplied with a ballot paper unless he gives an unqualified answer to the question or questions put to him and unless his answer to the first question is in the affirmative, the second question in the negative, and at a general election the third question also in the negative.

(2) Except as mentioned herein, every person whose name is found on the electoral roll shall be entitled to be supplied with a ballot paper.

26. If a person representing himself to be a particular elector named on the electoral roll applies for a ballot paper after another person has voted as such elector, the applicant shall, after duly answering such questions as the presiding officer may ask, be entitled to receive a ballot paper in the same manner as another elector. Such ballot paper (hereinafter referred to as a tendered ballot paper) shall be of a colour different from the other ballot papers, and, instead of being put into the ballot box, shall be given to the presiding officer and endorsed by him with the name of the elector and his number on the electoral roll and the name or number of the electoral area to which the roll relates and shall be set aside in a separate packet and shall not be counted by the Returning Officer. The name of the elector and his number in the electoral roll and the name or distinctive number of the polling station to which the roll relates shall be entered in a list in Form IV annexed to these regulations, which shall bear the heading 'Tendered votes list'. The person tendering such ballot paper shall sign his name and address on that list or affix his thumb impression thereto.

Explanation.—In cases falling under this regulation to which regulation 27 is also applicable, the provisions of this regulation as well as of regulation 27 shall be followed.

27. If any polling agent declares and undertakes to prove that any person by applying for a ballot paper has committed the offence of personation, the presiding officer may require such person to enter in the list of challenged votes (which shall be in Form V annexed to these regulations) his name and address, or, if he is unable to write, to affix his thumb impression thereto and may further require such person to produce evidence of identification. If such person on being questioned in the manner provided in regulation 25 gives unqualified answers to the first question in the affirmative and the other questions in the negative, he shall be allowed to vote after he has been informed of the penalty for personation. The presiding officer shall make a note of the circumstances and of his decision on the list of challenged votes.

28. An elector who has inadvertently dealt with his ballot paper in such a manner that it cannot conveniently be used as a ballot paper may, on delivering it to the presiding officer and satisfying him of the inadvertence, obtain another ballot paper in place of the spoilt paper, and the latter shall, together with its counterfoil, be marked as cancelled.

29. A presiding officer, polling officer, or polling agent, or public servant who is on duty at a polling station at which he is not entitled to vote shall, if he is certified by the Returning Officer of the constituency concerned to be entitled to vote at the election, be allowed to record his vote at that polling station. The name of the polling station at which he would otherwise have been entitled to vote shall be entered in the counterfoil of the ballot paper together with the other particulars to be entered therein.

30. (1) Such ballot paper shall be placed in an envelope and sealed by the presiding officer and returned with the certificate referred to in regulation 29 to the Returning Officer who is concerned with the counting of the votes and such Returning Officer shall cause such vote to be included among the other votes given for the candidate designated by the elector.

The counterfoil of such ballot paper shall be placed in an envelope and shall be added at the end of the file of counterfoils of the polling station at which the vote was recorded.

(2) The certificate referred to in regulation 29 shall be in the following form —

" Certified that entitled to vote at for constituency has been employed in connexion with the election for constituency and is prevented from voting at the said station and that I have therefore authorized him to vote at

Signature of Returning Officer ".

31. The presiding officer of each polling station, as soon as practicable after the close of the poll, shall, in the presence of any candidate or polling agents who may be present, make up into separate packets and seal with his own seal and the seal of such candidates or agents as may desire to affix their seal—

(1) each ballot box in use at such station unopened but with the key (which should also be sealed in the same manner as the ballot box) attached,

(2) the used tendered ballot papers,

(3) the unused ballot papers, ordinary and tendered,

(4) the spoilt ballot papers, ordinary and tendered,

(5) the marked copy of the electoral roll,

(6) the counterfoils of the ballot papers,

(7) the tendered votes list, and

(8) the list of challenged votes

and shall forward such packets to the authority mentioned in regulation 33.

32. The packets shall be accompanied by a statement in a separate cover in Form VI made by the presiding officer, showing the number of ballot papers entrusted to him, and accounting for them under the heads of ballot papers in the ballot box, unused, spoilt, and tendered ballot papers, and ballot papers dealt with under regulation 29.

33. Subject to any directions given in that behalf by the Returning Officer, the packets and statements shall be forwarded by the presiding officer to the Commissioner of the Corporation of Madras in the Madras city and to the divisional or taluk officer as the Returning Officer may direct in the instance. Each packet shall be numbered and shall bear a note as to its contents and the name of the polling station. Where no vote has been recorded in any constituency, the presiding officer shall submit a nil report together with the statement in Form VI and the empty box. The Commissioner of the Corporation of Madras or the divisional or taluk officer, as the case may be, shall forward to the Returning Officer, immediately on receipt from all the polling stations in the city division or taluk, the packets referred to in regulation 31 together with a statement in Form VII which shall be compiled from the statement in Form VI and from the *nil* reports received from the presiding officers.

PRESS COMMUNIQUE.

Fort St. George, July 22, 1930.

[The Madras Revenue Subordinate Service Rules.]

No. 282.—The attention of the Government has been drawn to an article by a correspondent who subscribes himself "S.P.P." in the issue of *Justice*, dated 18th June 1930, under the heading "The Madras Revenue Subordinate Service". The correspondent appears to think that G.O. No. 791, Revenue, dated 26th April 1930, is in conflict with the rules issued with G.O. No. 1251, Public (Services), dated 30th November 1929. The position is as follows :—

The statutory qualifications necessary for admission to the Revenue Subordinate Service as a Deputy Tahsildar are laid down in rule 4 (B) of the Revenue Subordinate Service Rules which were published with G.O. No 1251, Public (Services), dated 30th November 1929. One of the qualifications prescribed is service for two years as a Revenue Inspector, but under the proviso to the rule, this condition will not apply to any person who had completed one year's service as Revenue Inspector on or before 10th December 1928. The object of the orders issued in G.O. No. 791, Revenue, dated 26th April 1930, was merely to ensure that certain revenue officers who have reached the grade of Deputy Tahsildar or Tahsildar or are likely to do so in the near future but have not had the advantage of sufficient practical training as revenue inspectors should now undergo a course of training which is calculated to increase their efficiency as Deputy Tahsildars and Tahsildars. These orders do not prescribe any qualifications additional to those prescribed in the statutory rules for admission to the Revenue Subordinate Service, and the apprehension of the correspondent that there is any conflict between the two orders to which he refers is thus unfounded.
